# Life your world

Long time ago, you decided to live your world in a natural, sustainable and mindful way, letting you be surprised by the pleasures of life. Enjoying simple things, every single minute.

There is a world like this, closer than you have ever dreamt. It is called Cubelles, an ecofriendly destination, by the Mediterranean sea, where the time goes dribs and drabs, the sun shines 285 days a year, and the healthiest gastronomy in the world is cooked little by little, with the best products from the garden and the sea.

Cubelles is hidden like a precious treasure, by the sea, in El Garraf region, very well connected to Barcelona and Tarragona. It is told, its history echoes off the walls from enigmatic places like Can Travé, Fortí de la Mota de Sant Pere, or Cubelles Castle. Where the adults smile, the same way the used to do in their childhood, enjoying the exhibition about Charlie Rivel, the world renowned clown, or the beaches of smooth sand and their smell of freedom, embraced by the Foix river mouth, a paradise for migratory birds. Your world, just the way you once dreamt. It is called Cubelles and it is waiting for you, to give your best, respecting the environment!

Come and find it out!

**Water park**

# A world to discover

It is not by chance that Cubelles is the favourite destination for the circus lovers. One of the most international and endearing geniuses, Charlie Rivel, son of Cubelles, has his own museum, a permanent exhibition, where the little ones, enjoy the make-up activities, and the adults try to relish the circus rink games.

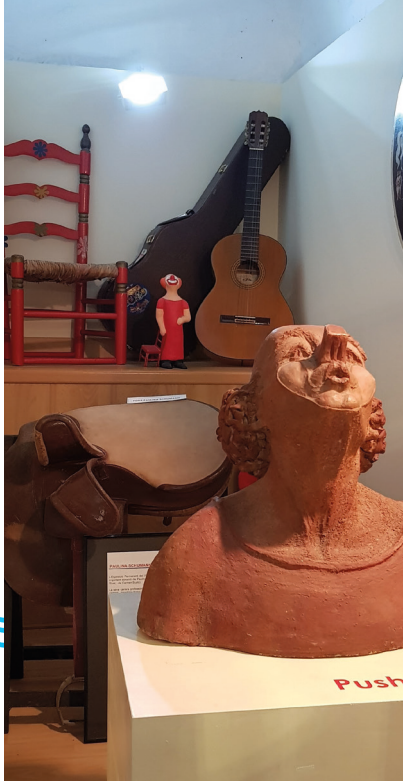

The culture in Cubelles is based on the heritage of its legacy. This happens when we talk about the Ancient Castle of Cubelles, built on a Roman Vila. Undoubtedly, one of the town's identifying traits, just like the Civil World prints, are the fortifications and the machine gun nests, designed in case of the landing attack of Franco's troops in the Riu Foix river mouth, and of course, the best well preserved Fortress in Catalonia, called Fortí de la Mota de Sant Pere. In the same enclave, it is located an Iberian deposit. Cubelles has many other important historical places, such as the traditional laundry, Can Travé, l'Aliança or the public fountains.

# A world to taste

Cubelles tastes good!! So much so many food and wine competitions, take place in town. Gastronomic days, short plates exhibitions, or the month of Xatò , a typical dish made with products from the orchard and the sea (Penedés Marítim) are an example of how citizens enjoy their local and unique gastronomy. Always elaborated with nearness products, found in the Ecomarket, by the hands of the producers on Christmas Eve. But, without any doubt, the most popular food and wine celebration, per excellence, is the traditional harvest Festival, and the election of the Pubilles and Hereus tastings. The Art and Jobs fair, related to the vineyard and the wine, as main protagonists.

The Cubermut is a vermouth festival and a tribute to that classical and popular drink, where you can taste more than a 100 different assortment of the best vermouths in the world. Including masterclasses and workshops all pairing with good live music in an unforgettable atmosphere.

# Decalogue for a responsible tourism

10 suggestions to enjoy Cubelles in a responsible, sustainable way preserving the environment.

1

## Life

The traditions, the festivals, and the local fireworks are a cultural heritage that will make you feel excited.

2

## Buy and give km0

Whatever you need to buy, look for local products.

3

## Purchase and taste

Choose certified companies committed to the environment, and look for local accommodation.

4

## Preserve

Preserve nature and try not to leave a print, except your shoe's.

# 5

## Respect

Reduce the use of resources and leave the natural environment just the way you would like to find it. Be responsible with water and electricity use. Collect your own trash, or from others.

# 6

## Ensure

Respect the flora and fauna and the geological heritage, as well as the local animals, or the wild ones. Try not to disturb or scare them. And, please, don't touch, the rocks, flowers, plants, fossils and the rest of the natural elements around.

# 7

## Know

Learn more about our cultural and natural patrimony, visit our Tourism office, and let us show you, all the routes, activities, hour hand, or places to visit. Plan your stay.

# 8

## Move

Choose non motorized transport and just walk as much as possible.

# 9

## Opine

Help us to improve the increasing and sustainable municipal development.

# 10

## Enjoy

Open you mind to new experiences, and be tolerant to diversity.
